ALUMINIUM BAY WINDOWS

Aluminium Bay Windows are renowned for their stunning aesthetics, modern design appeal and exceptional durability. Unlike traditional timber windows, they require no painting or staining to remain sleek and weather resistant, and their robust frame makes them immune to rust or corrosion, ensuring long-lasting performance.

Alongside their elegant style, our aluminium windows are also available in a super-slim frame to maximise the infusion of natural light throughout any property.

AT A GLANCE...

- Super-slim flush sash options available for seamless aesthetics
- Industry-leading aluminium frames for excellent durability & efficiency
- High-quality powder coating to withstand harsh elements & weathering
- U-values from 1.0 U/m^2K)

ECO-FRIENDLY SOLUTIONS

Aluminium Bay Windows present an eco-conscious benefit due to their recyclability. When you opt for aluminium products in your home, you contribute to a sustainable cycle where materials can be repurposed at the end of their usage, supporting environmental conservation projects.

IMPRESSIVE PERFORMANCE

Superb weather sealing is accomplished through specially engineered perimeter seals. Our commitment to weather-tightness is demonstrated through rigorous testing to meet British standards.

MAXIMUM VISION

Experience expansive views with generously sized super-slim sashes as standard and versatile configurations, maximising the infusion of natural light.
